ADDITIONAL LEARNING SUPPORT

What is ADDITIONAL LEARNING SUPPORT (ALS)?

Well, it's just that – support which is in addition to the course you are studying. Our support services are there to support, guide and advise all students regardless of your course, the level you are studying or if you already receive another form of support. Whether you need a little extra help with your studies, specialist equipment, or just need a chat, the team are here for you.

The wellbeing of each and every student is at the forefront of everything we do. We want all students to flourish and excel while helping you develop confidence, self-motivation, independence and life skills. That's why our ALS team will work with you every step of your journey to give you support that's just for you and your needs.

We have provided examples of the types of support we have put in place for our students. These are just examples though, so please get in touch if there is something not listed that you need and we can help.
